Alex Chen

San Francisco, CA • alex.chen@applicant.io • +1 (555) 019-2834 • linkedin.com/in/alexchen-ai

PROFESSIONAL SUMMARY

Senior AI and Machine Learning Engineer with 5 years of experience architecting and deploying end-to-end deep learning architectures, LLM fine-tuning pipelines, and production NLP systems. Demonstrated expertise in PyTorch, TensorFlow, Scikit-Learn, Docker containerization, Kubernetes microservice orchestration, and low-latency REST API design.

TECHNICAL SKILLS

Languages & Core: Python, SQL, C++, Bash
Machine Learning & Deep Learning: PyTorch, TensorFlow, Scikit-Learn, Deep Learning, Natural Language Processing (NLP), Transformers, LLMs, Computer Vision, Pandas, NumPy
MLOps & Cloud Infrastructure: Docker, Kubernetes, Microservices, REST API, System Design, AWS, CI/CD, Git

PROFESSIONAL EXPERIENCE

Senior Machine Learning Engineer • NeuralScale AI Labs, San Francisco, CA • 2022 – Present (3 years)
• Led development of scalable deep learning architectures and NLP transformer models serving 12M+ daily inference queries.
• Fine-tuned open-source LLMs using PyTorch DistributedDataParallel across multi-GPU AWS clusters with automated checkpointing.
• Packaged model inference pipelines into Docker containers deployed onto Kubernetes clusters with REST API endpoints achieving <35ms p99 latency.
• Built reproducible evaluation frameworks with Scikit-Learn metrics and automated regression test harnesses.

Machine Learning Engineer • DataVision Technologies, San Jose, CA • 2020 – 2022 (2 years)
• Designed NLP document classification models in Python and TensorFlow, increasing extraction accuracy by 28%.
• Developed REST API microservices with FastAPI and Docker for integration with enterprise client portals.
• Contributed to system design evaluations and data pipeline optimizations using Pandas and NumPy.
• Achieved a total of 5 years of production experience in machine learning and deep learning systems.

EDUCATION & CERTIFICATIONS

Master of Science in Computer Science (AI & Systems Specialization) • Stanford University • 2020
Bachelor of Science in Software Engineering • UC Berkeley • 2018
AWS Certified Machine Learning – Specialty • 2023
